Pressure regulator, Series AS3-RGS

- G 3/8 G 1/2
- Qn = 6500 l/min
- Standard pressure regulator
- Activation Pneumatically

Technical data

Part No.	Port	Flow		
		Qn		
R412007094	G 3/8	6500 l/min		
R412007095	G 1/2	6500 l/min		

Control pressure: see diagram, Nominal flow Qn with secondary pressure p2 = 6 bar at Δp = 1 bar Order pressure gauge separately

Technical information

The pressure dew point must be at least 15 °C under ambient and medium temperature and may not exceed 3 °C.

The rear pressure gauge connection on the pressure regulator is closed with a blanking plug, the front connection is open. Depending on the customer application, a second blanking plug may be necessary. Please order separately (see accessories).

A change in the flow direction (from air supply on the left to air supply on the right) occurs by rotating installation by 180° about the vertical axis. Please see the operating instructions for further details.

Relieving exhaust (≤ 0.3 bar over set pressure)

With rear exhaust (> 3 bar)

Technical information

Material					
Housing	Polyamide				
Front plate	Acrylonitrile butadiene styrene
